

# FUN WITH MATH

5+

## Preface

***Fun with Math 5+***, designed for children from 5 years old, provides a structured approach to learning basic mathematical concepts. A variety of engaging activities encourage reasoning and judgment while helping to develop logical thinking skills naturally and effectively.

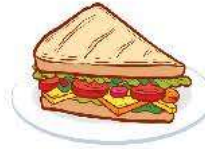

***Fun with Math 5+*** covers topics such as simple numbers, addition and subtraction, grouping, sequences, shapes, sizes, and spatial awareness.

# Quantities

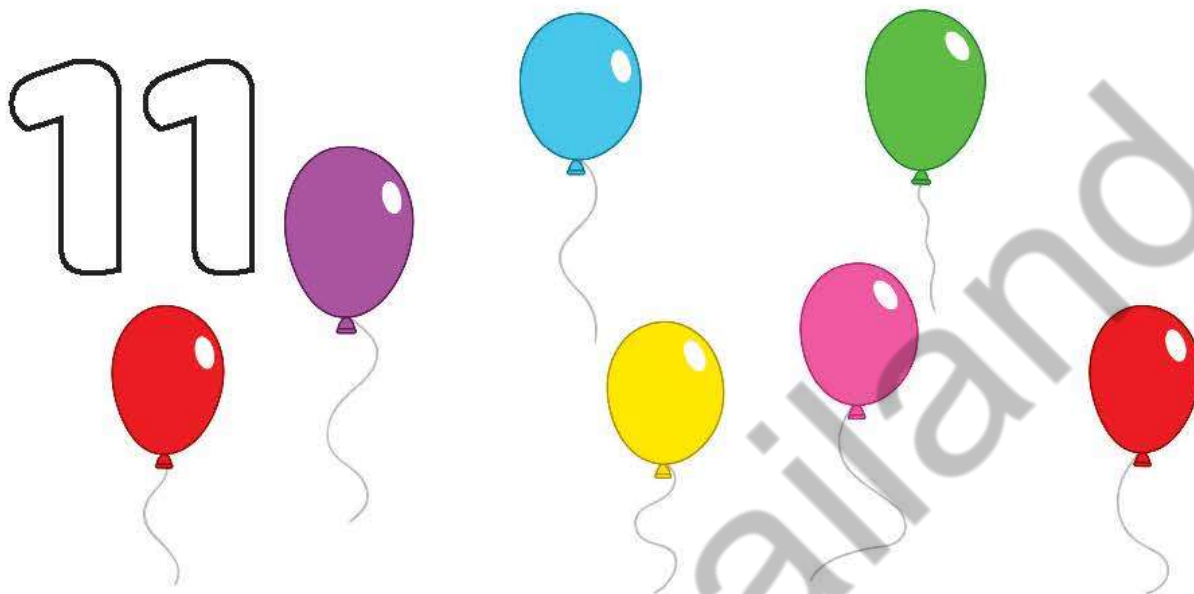

• Color the correct number of objects.

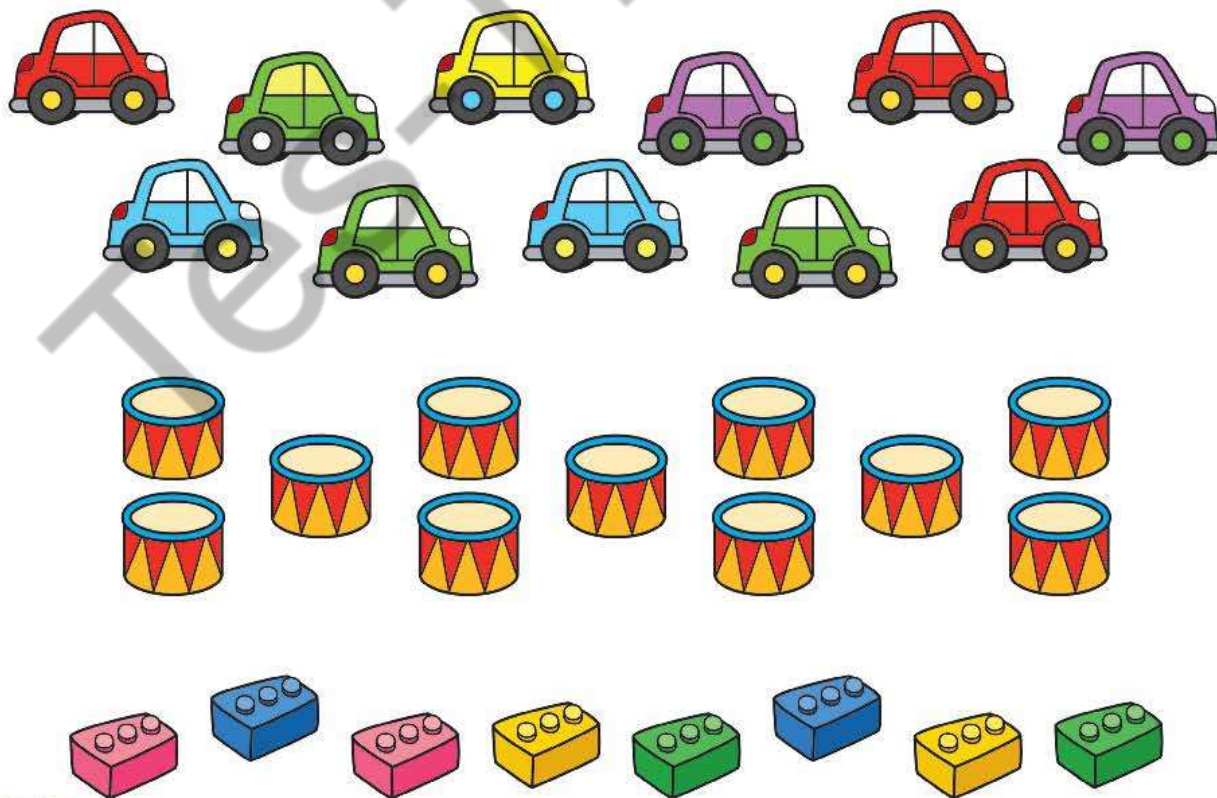

# Number 11

• Color number 11. Stick the balloons to make a group of 11.

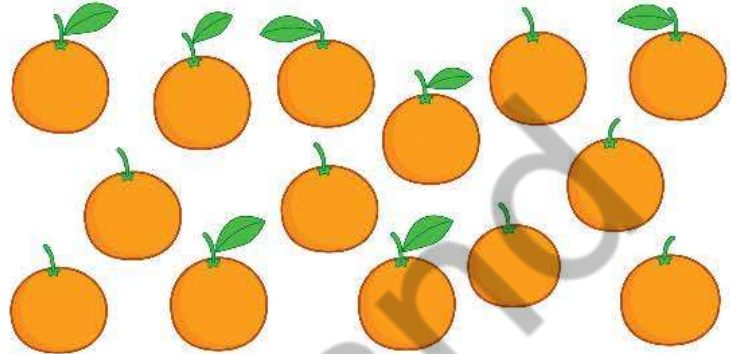

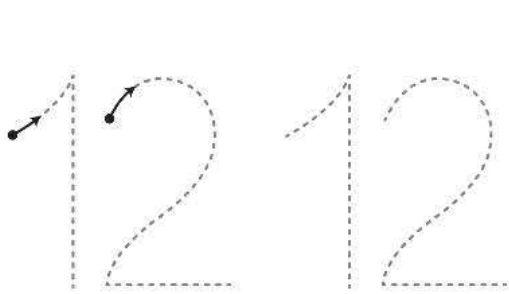

• Circle the groups of 11.

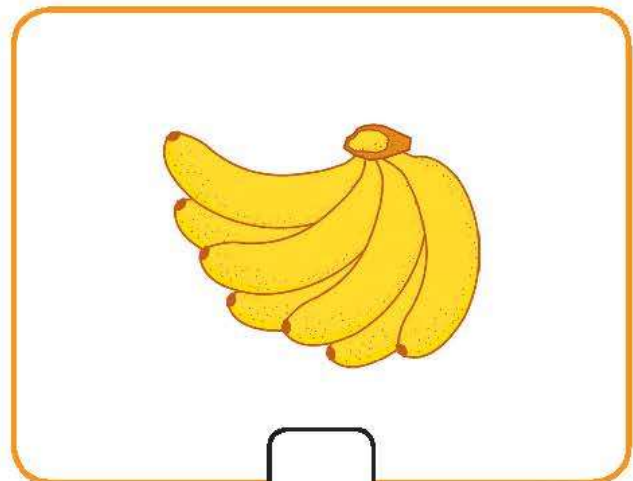

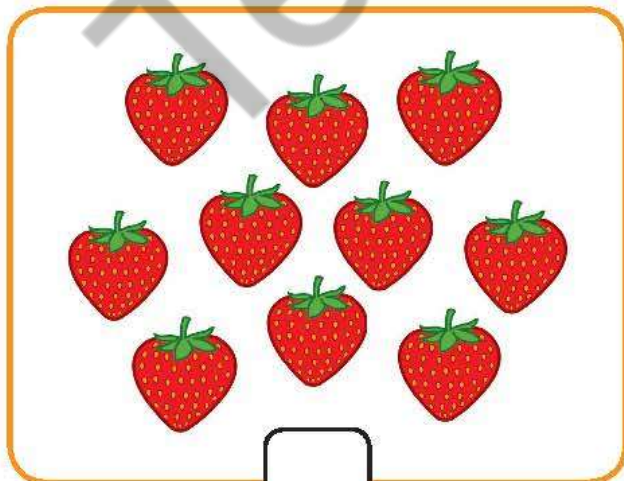

# Number 12

- Trace number 12. Circle a group of 12 oranges.

- Put a cross (X) in the  for the group of 12.

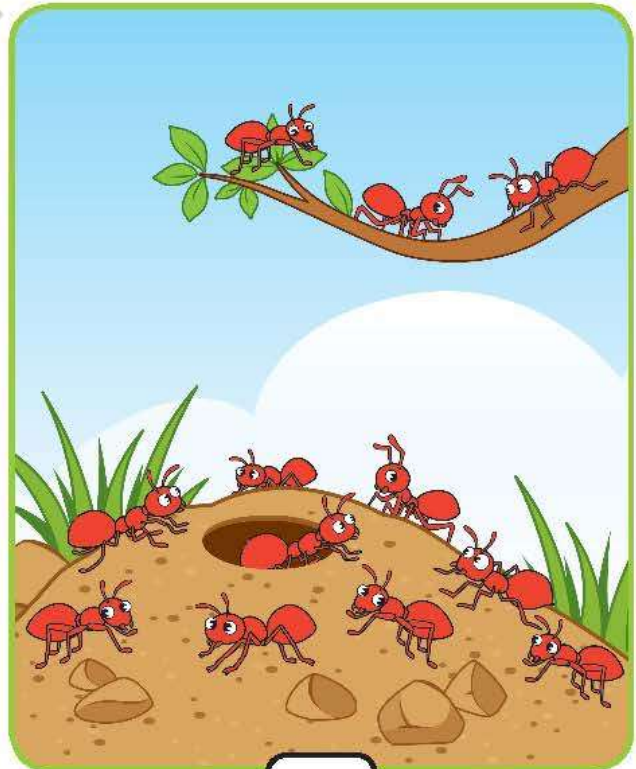

# Number 13

• Find and trace number 13.

• Color the  below the picture with 13 insects.

# Number 14

• Circle number 14.

1 14 9 14 2 12  
3 14 11  
8 14 4  
13 5 10 14 6

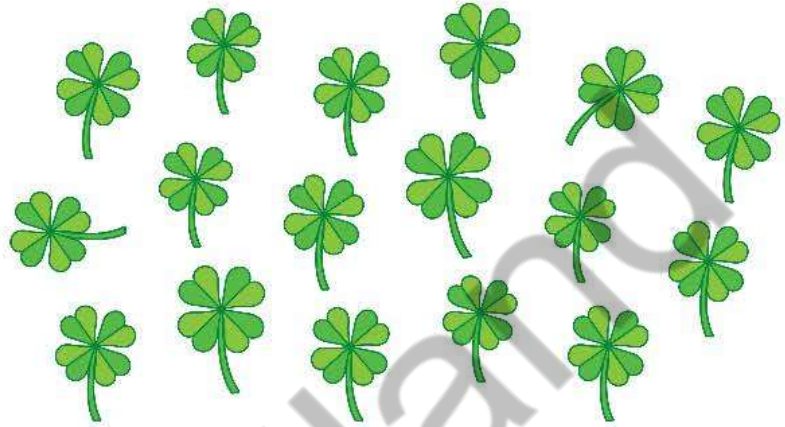

7

• Count and write the numbers in the .

# Number 15

• Color number 15. Circle a group of 15 plants.

# 15

• Count and write the numbers in the .
